In pursuance of the policy of the Government to provide quality education at door step of citizens of remote areas, the Bahawalnagar campus was established in 2005. The campus has been housed in the borrowed building of Comprehensive High School which has been refurnished and renovated properly. It was decided to launch demand driven and market based programs. Accordingly the Departments of Management Sciences and Computer Sciences & IT were established in the first phase. Now in all eight departments are functional with 13 different programs in morning and evening. The campus offers very conducive environment and is equipped with all facilities like two most modern computer labs, internet, multimedia, scanner and library. The campus has three hostels: One for boys and two for girls having capacity of 175 students. One more hostel for faculty members is being established. The campus has its two buses and a coaster for providing the transportation facility to the students and staff.

In order to establish a permanent campus 50 acre land has been transferred by Government of the Punjab in the name of University campus. The CDWP has already approved Rs. 409 million for the development and construction of the campus building at Bahawalnagar. In this connection master plan has been finalized and detail drawings of 1<sup>st</sup> phase buildings are being prepared by the consultants.

**Note:**

The program structure, eligibility, admission criteria, fee structure and other rules & regulations being practiced at Bahawalpur campus will also be applicable in the respective Departments at Bahawalnagar campus.
